

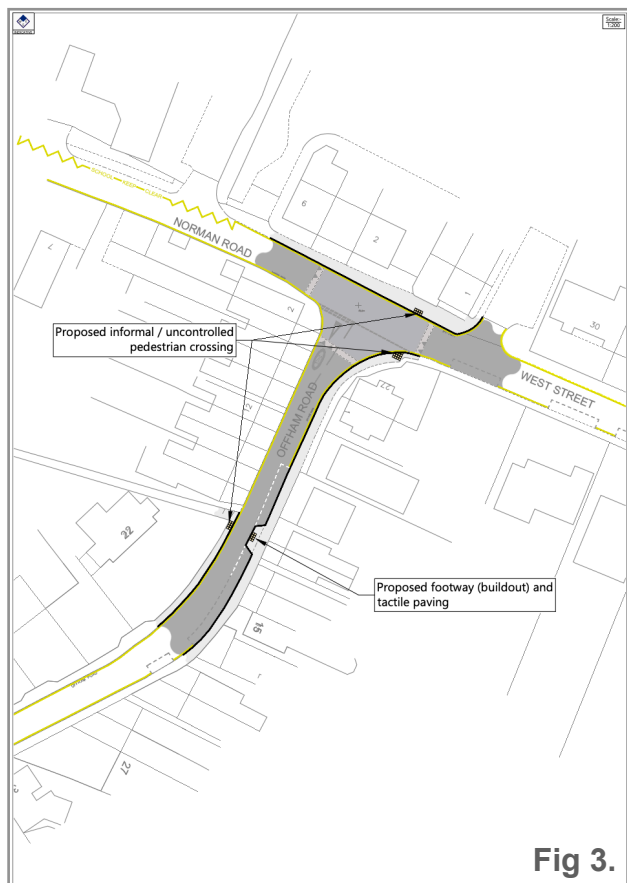

Fig 3.

Fig 3. At the junction of Offham Road and West Street, additional tactile paving will be installed to further assist visually impaired pedestrians. Where the existing northern footway ends, a new build-out will be created on the southern side of Offham Road to narrow the carriageway and improve pedestrian crossing safety.

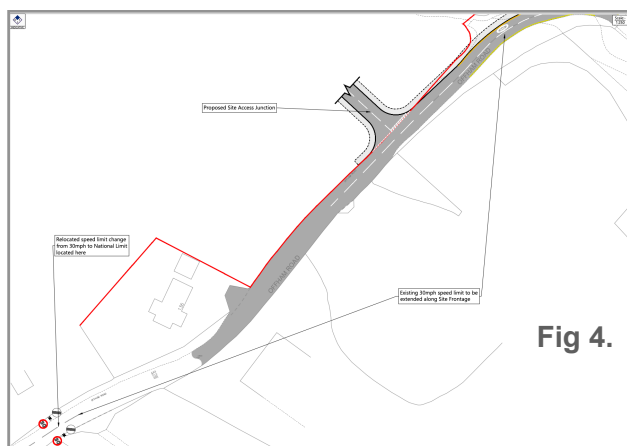

Fig 4.

Fig 4. The 30mph speed limit will be extended by relocating the transition to the national (60mph) limit approximately 200 metres further west along Offham Road.
